Skills

Technologies: Ruby, Python, Java, Javascript, MySQL, HTML, CSS, Rails, React, Angular, Flask, Bootstrap, Git, Regex, Webpack, Less, Sass

Languages: Spanish (Fluent), English (Fluent), Norwegian (Advanced), Catalan (Fluent), French (Intermidiate)

Projects

HackShow Finalist: Made it to the top 5 projects of the IronHack cohort and presented during the final ceremony

Prize at Manchester MLH Hack: Created a mobile app that provided directions without internet connection

weworkdata.com: Created a niche job board for Data Science jobs. Built in ReactJS + Flask.

elWorldtrip: Project that involved traveling around the world with my family for an entire year. The six of us crossed more than 30 countries and 5 continents in our old Toyota Land Cruiser. It was a trip to explore the world, learn about foreign cultures and, last but not least, to spread consciousness about Diabetis.
